SUMMARY

Computer Engineering student with a strong foundation in Core Java, Object-Oriented Programming (OOP), and software development principles. Possess sound knowledge of JVM Architecture, Class Loading Mechanism, Memory Management, Garbage Collection, and SDLC. Strong analytical, debugging, and problem-solving skills with a keen interest in backend development. Currently learning Maven to build scalable Java applications and seeking a Trainee Java Developer/Software Developer role.

EDUCATION

Bachelor of Engineering (B.E.) in Computer Engineering Graduating Expected May 2027
Savitribai Phule Pune University (SPPU), Pune, Maharashtra CGPA: 9.14/10
Trinity College of Engineering and Research, Pune
Relevant coursework:

TECHNICAL SKILLS

Programming Languages: Core Java with DSA, HTML, CSS, JavaScript
Databases: SQL, MYSQL
Build Tools: Maven
Tools: Git, GitHub, Firebase, VS Code
Operating System: Ubuntu Linux

ACADEMIC PROJECTS

ShramSetu 2026
Developed a platform that enables contractors and construction workers to connect directly with customers.

GitHub: github.com/Shradhadhage/Shramsetu_Platform

- Built responsive user interfaces using HTML5, CSS3, and JavaScript.
- Implemented backend functionality and database integration using Django and SQL.
- Designed features for worker registration, contractor management, and customer interaction.

ShadowShield – Women Safety Application 2026
Developing a Java-based application focused on enhancing women's safety through emergency assistance features.

- Developing the application using Core Java and Object-Oriented Programming principles.
- Implementing SOS alerts, emergency contact management, and live location sharing features.
- Applying Java Collections Framework and Exception Handling to build reliable application modules.

WORK EXPERIENCE

EYGDS, Pune, Maharashtra: Software Development Intern 2026

- Developed responsive web pages using HTML, CSS, and JavaScript.
- Worked with SQL databases and performed CRUD operations.
- Assisted in backend development using Django.

Incubators, Pune, Maharashtra: Java Development Intern 2026

- Built Java applications using Object-Oriented Programming (OOP) principles.
- Implemented file handling, exception handling, collections, and multithreading concepts.
- Worked with JDBC and MySQL for database connectivity and CRUD operations.
- Used Maven for project management and version control with Git/GitHub.

LEADERSHIP & ACTIVITIES

Core Team Member, Trinity College of Engineering and Research 2025–2026
Contributed to technical events and demonstrated leadership in academic and software development projects.

Research Publication 2024–2025
Published "Protective Behaviour Model for Smart Dog Robot in Real-Time Human Safety Applications" in MAT Journal.
